

RE1 Rafter Center Locator

RafterEye

1 lag. 1 hole. No doubt.

Benefits:

- › Precise location of accessible rafters
- › Direct indication of rafter center from rooftop
- › Reduces installation time
- › Eliminates error-prone measurement transfer
- › Avoids damage, leaks; reduces attachment failures
- › Solar, electrical, HVAC, telecom applications
- › Reads through up to 8" of material

Features:

Powerful magnetic field formed below deck, read on rooftop, gives direct center indication

Slide-on swiveling magnet blocks for maneuverability in tight spaces

Clamp allows one- or two-person operation

Hardwood compass housing

Aluminum carrying case

One-year manufacturer's warranty
