

RE1 Rafter Center Locator

Rooftop attachment aid

RafterEye
1 lag.  1 hole. No doubt.

Features

Neodymium magnets create symmetrical magnetic field around rafter

Compass indicates rafter center on rooftop

Reads through up to 8" of material

Slide-on swiveling magnet blocks facilitate maneuverability in tight spaces

Clamp accommodates rafters up to 2x12 or 8x8; magnets can be hand-held for oversize

Compass housed in durable hardwood

Benefits

Precisely locates exposed or accessible rafters before any holes are drilled

Reduces installation time

Eliminates error-prone measurement transfer

Avoids damage, leaks, attachment failure

Reduces consumables use (drill bits, sealant)

Solar, electrical, remodeling, HVAC, telecom applications

Improves customer satisfaction
